PROFILE

Developer Relations Engineer with **3+** years leading developer onboarding, content creation, and open-source engagement across **Tezos, Etherlink, Sui, and Berachain**. Built scalable **DevRel formats, technical workshops**, and **content-first ecosystems** reaching 15,000+ developers. Experienced in **dApp development, smart contract onboarding**, and **building zero-to-one community initiatives**.

PROFESSIONAL EXPERIENCE

Lead Developer Relations

10/2022 – present | India

Tezos India

- Spearheaded flagship onboarding formats: **Hack7Days, TezMeets, TezDay**, and **TezGuilds**, across **16 Indian cities**—impacting **15,000+ developers**.
- Delivered **100+ workshops** on **Tezos, SmartPy**, and developer tooling.
- Built credit-backed blockchain courses with the **University of the Philippines**, expanding Tezos L1 academic engagement.
- Led technical support, mentoring, and community activation for **TezAsia 3.0 (13,000+ registrations)** and **Tezos Guild BuilderCamps (75% graduation rate)**.

Dev Advocate

01/2024 – present

Etherlink (Sub-role under Tezos India Lead)

- Conducted **40+ Etherlink onboarding sessions** for Solidity devs and EVM-native builders.
- Created dApp templates and onboarding tutorials mapping Etherlink with **Hardhat, Foundry**, and **Tezos rollup architecture**.
- Curated and maintained GitHub showcase repo for post-hackathon projects: TIPProjects
- Produced online workshop series on Etherlink + EVM integration: YouTube

Founder

07/2022 – present

Web3Panjab

- Built Web3Panjab as a **regional DevHub** for Punjab & Haryana's Web3 enthusiasts, builders, and content creators.
- Led **Sui and Berachain content series** —simplifying on-chain primitives through **storytelling-based explainers**.
- Organized university **meetups, dApp showcases**, hackathons, and learning sprints targeting 1st-gen Web3 developers throughout North India. Collaborated and partnered with top firms and protocols in industry.

PROJECTS

Gitfund

- Built to auto-pay open-source contributors post-merge via smart contracts.
- Tracks PRs and merges, supports custom repo rules, and encourages sustained OSS contributions.

Bullstreet.fun

- Built meme-launchpad with NFT utility, interchain asset flows, and early community ownership.
- Used as proof-of-work to demonstrate EVM skills, bridging ETH communities.

Scrap Grab

Automates extraction of location data from geo-locked sites.
